

Immunization Requirements

DPT

4 or 5 doses of DTap are required for grades k-12 depending on the dates of immunization.

All 7th graders are now required to have a booster Tdap if none has been received since the age of 10.

Polio

If the third dose was received prior to the fourth birthday, a fourth dose is required.

MMR

Two doses of the measles, mumps, and rubella (MMR) vaccine are required. The first dose must have been received on or after the first birthday and the second at least 28 days after the first dose.

Hepatitis B Vaccine

All children entering kindergarten are required to receive a three-dose series of the Hepatitis B vaccine.

Varicella (Chickenpox)

All children entering kindergarten are required to receive two Varicella vaccines.

All of these requirements will be strictly enforced. The State of Ohio mandates that on the fifteenth day of school, no child will be allowed to remain in school without these required immunizations or a waiver in place.
