Utica High School Course Selection Guide

Utica High School 260 Jefferson Street P.O. Box 677 Utica, Ohio 43080

North Fork School District Vision Statement

"Provide and inspire achievement and accountability that maximizes quality learning"

Course selection is among the most important choices that our students will make during the course of their high school career. College and career paths begin here, and the foundation is laid for future success.

For 8th graders and freshmen, course selection is largely a process of finding elective courses that meet student interest and aptitude. For 10th and 11th graders, scheduling courses that meet the needs of their future plans is most important.

Rigorous course taking is among the best things a student can do to prepare for college! Neither the junior or senior years are the time to coast to the finish line. Students should take advantage of our Advanced Placement and College Credit Plus classes.

Our school counselors stand ready to assist students in making great decisions that will benefit their future.

FOR PARENTS:

Have a discussion with your student about their future, including what kind of post-secondary education they might want or need for their career. We have information that can help you have that conversation! You should also talk about how they have liked or disliked the high school courses they've taken, as that can indicate aptitude for college study as well. Communication is the key!

FOR STUDENTS:

High school is a time for learning. Take advantage of the opportunities available to you at UHS! Talk to your teachers and your school counselors about course selection, and even more importantly, talk to your parents about your career and post-secondary aspirations. We want to help you succeed.

UHS operates on a 10-period day. All students must register for a minimum of 8 periods of classes, per semester.

General Information

Course Credit

All final student grades for courses will be calculated with the grade scale and as follows: Course credit will be issued on a full-year basis rather than by semester for year-long courses. This means that students will not receive credit for one semester in a year-long course. They must pass the class for the year in order to receive credit for the course. If a student fails the course, he/she must repeat the entire course, not just the semester he/she may have failed.

Drop/Add Courses

Students who would like to change their schedule should speak with their counselor before the semester begins. Schedule changes will be made for students if there is an error on their schedule (missing class period, assigned two classes at the same time, etc). Counselors will change schedules during the first five days of a new semester if they were not done before the semester began. Students who choose to drop a class after this time will receive a withdraw fail for the class.

Athletic Eligibility

All OHSAA (Ohio High School Athletic Association) regulations regarding academic eligibility shall be followed. The athletic director shall be responsible for checking and certifying the eligibility of all athletes. Students must pass 5 courses (excluding PE) for each grading period.

NCAA Eligibility

The National Collegiate Athletic Association (NCAA) has established rules relating to eligibility, recruiting, and financial aid for high school students wishing to become college athletes. There are three divisions of the NCAA – Division I, Division II, and Division III. Membership of colleges is based on the size and scope of the athletic program and the offering of athletic scholarships.

Interested high school athletes who plan to enroll in college as freshmen and wish to participate in Division I or Division II sports must be certified by the NCAA initial "Eligibility Clearinghouse." See your school counselor for further information and/or visit the NCAA official web site at www.eligibilitycenter.org for an on-line application or call their toll-free hotline at (877) 262-1492.

PE Waiver

Students who have participated in interscholastic athletics, marching band, bowling, or cheerleading for at least two (2) full seasons, while enrolled in grades 9 through 12, and as documented by the school counselor may be excused from the high school physical education requirement. Forms must be completed and submitted to the school counselor by **September 1**st of the school year the PE Waiver is beginning. Students electing such an excuse shall complete one-half (1/2) unit of at least 60 hours of instruction in another course of study that meets high school curriculum requirements.

Advanced Placement Classes

Advanced Placement (AP) Are you ready for a unique learning experience that will help you succeed in college? Through AP's college-level courses and exams, you can earn college credit and advance placement, stand out in the admission process, and learn from some of the most skilled, dedicated, and inspiring teachers in the world.

A Different Kind of Class

From the moment you enter an AP classroom, you'll notice the difference – in the teacher's approach to the subject, in the attitude of your classmates, in the way you start to think. In AP classrooms, the focus is not on memorizing facts and figures. Instead you'll engage in intense discussions, solve problems collaboratively, and learn to write clearly and persuasively.

Prepare to Succeed in College

AP courses can help you acquire the skills and habits you'll need to be successful in college. You'll improve your writing skills, sharpen your problem-solving abilities, and develop time management skills, discipline, and study habits.

Earn College Credit and Placement

Most four-year colleges in the United States and colleges in more than 60 other countries give students credit, advanced placement or both on the basis of AP Exam scores. By entering college with AP credits, you'll have the time to move into upper-level courses, pursue a double-major or study abroad.

College Credit Plus

The College Credit Plus program is open to students in grades 7-12. The program enables college qualified students to take college courses while in high school at a state supported college/university at no cost to the student for tuition, books, or fees. Students will be financially responsible for any course that is failed during the CCP program. There may also be costs associated with College Credit Plus at a private college or university should these institutions participate in the program. Students and parents must have attended an informational meeting, complete an intent to participate form by April 1, <u>sign</u> <u>and turn in the UHS Rules & Regulations form</u>, and must meet all college application requirements and deadlines. This is typically determined by an ACT or ACCUPLACER test score. To learn more, visit https://www.ohiohighered.org/ccp or see a school counselor!

College Visits

Juniors (1 excused day) and seniors (2 excused days) are allowed a specific number of days for college visitation. College visitation permission forms must be obtained in the counseling office or on the counseling website and submitted to the main office following the visit. The visitation days will not count against students' attendance records.

C-TEC Process

Sophomore students interested in applying to C-TEC need to do so by the end of January (the specific day varies each year). Applications are made available to students after Sophomore Hands On Day, which generally falls the last week of November or the first week of December. The C-TEC application must be submitted online through the C-TEC website. Students are required to submit a parent signature form to the counseling office to complete their application. Once the form is submitted to the counseling office, and official transcript and Counselor Recommendation will be uploaded. All applications must be completed by the first Friday in February. Students generally hear of acceptance during the week of Spring Break, directly from C-TEC.

Applications will be reviewed by C-TEC based on the following courses completed by the end of the sophomore year:

- 2 English credits
- 2 Math credits
- 2 Science credits
- 2 Social Studies credits

½ PE credit
½ High School 101 credit
½ Health credit
½ Financial Literacy credit

Core classes (such as 9th & 10th grade English, physical science & biological science, US history, & modern world history, and 2 credits of math) and required elective credits (physical education, health, high school 101, and financial literacy) must be completed prior to going to CTEC. If not, there will be a cost to the student/family for the student to earn the required credits.

<u>Please note:</u> Some C-TEC programs require a specific GPA. Please contact your counselor or C-TEC for more information. C-TEC also uses attendance and behavior to guide their acceptance process.

Students who choose to withdraw their application, need to contact C-TEC directly and will be required to have parental permission.

Weighted Academic Point System

It is recognized that some courses of study in our curriculum are much more difficult than others. Therefore, it is not our intent to penalize students who are taking a more challenging schedule, but to encourage them by using the following weighted system. College Credit Plus courses, which replace classes with weighted grades at Utica High School will be weighted in the calculation of student's GPA. The weighted system is determined by adding the following values:

System	Grade=Points	Classes
Regular Point System	A=4.0 B=3.0 C=2.0 D=1.0 F=0	*All Courses except those listed below*
.25 System	A=4.25 B=3.25 C=2.25 D=1.25 F=0	 Advanced English 9 Advanced Geometry Advanced English 10 Advanced Biology Advanced Algebra 2 Chemistry
.5 System	A=4.5 B=3.5 C=2.5 D=1.5 F=0	 Advanced Anatomy/Physiology Advanced Chemistry Advanced Chemistry 2 Advanced Physics Pre-calculus Spanish III, IV, & V College Algebra (CCP) Intro to Statistics (CCP) Calculus (CCP)
1.0 System	A=5.0 B=4.0 C=3.0 D=2.0 F=0	 AP English Literature & Comp AP English Language & Comp AP Government

**It may be possible to take additional weighted courses through the College Credit Plus program. See your counselor if you have questions regarding CCP and weighted courses. For additional information, please visit https://www.ohiohighered.org/ccp/faqs

Health	¹ / ₂ Credit	US History
High School 101	1/2 Credit	Government
Computer Technology	1/2 Credit	
Electives:	5 Credits	
 Students must complete 2 semesters of Fine Arts (Art, 		
Band, Music, Choir, Yearbook) in grades 7-12 before		
graduation.		
Service Learning (30 Hours)	¹ / ₄ Credit	

**Substitute Exams: Students may take exams for a course listed above if that student is taking an AP Exam (at UHS currently this would only include Government).

State Requirements:

- 1. **Demonstrate Competency** Students must demonstrate competency in math and English by passing the state's Algebra 1 and English 2 tests. Students who have taken required tests more than once without passing and have received remedial supports are able to show competency through one of the options below:
 - Earn credit for one math and/or one English course through College Credit Plus
 - Demonstrate career readiness and technical skills through foundational and supporting options
 - Enter into a contract to enlist in the military upon graduation
- 2. **Preparation for College or Careers** Students must earn two diploma seals, one of which must be state defined to demonstrate academic, technical and professional readiness for careers, college, the military, or self-sustaining professions.

State System of Diploma Seals

Criteria for Ohio High School Academic Honors Diploma

Class of 2023-2025

Students must meet **all but one** of the following criteria, unless it is a minimum graduation requirement. Students must meet general graduation requirements to qualify for honors diplomas.

Criterion	Academic Honors Diploma
Math	4 Units , Algebra I, Geometry, Algebra II (or equivalent), and one other higher-level course
Science	4 Units, including two units of advanced science
Social	4 Units
Studies	
World	3 Units of one world language, or no less than 2 Units of each
Languages	of two world languages
Fine Arts	1 Unit
GPA	3.5 on a 4.0 scale
ACT/SAT	27 ACT/ 1280 SAT

Class of 2026 and Beyond

Students must meet **all but one** of the following criteria, unless it is a minimum graduation requirement. Students must meet general graduation requirements to qualify for honors diplomas. <u>Students may replace one requirement of</u> either 4, 5 or 6 with a "Student Strength Demonstration."

Criterion	Academic Honors Diploma
(1) Math	4 Units , Algebra I, Geometry, Algebra II (or equivalent), and one other higher-level course
(2) Science	4 Units, including two units of advanced science
(3) Social Studies	4 Units
(4) World Languages	3 Units of one world language, or no less than 2 Units of each of two world languages
(5) GPA	3.5 on a 4.0 scale
(6) ACT/SAT	27 ACT/ 1280 SAT
(7) Seal Requireme nt	Earn two additional diploma seals, not including Honors Diploma Seal
(8) Experiential Learning	Field Experience, OhioMeansJobs Readiness Seal*, Portfolio or Work-Based Learning

*Students can use OMJ Readiness Seal in 2 additional seals requirement if it is not used in Experiential Learning.

Student Strength Demonstration Replacement

Students can use the Student Strength Demonstration to replace one of either the ACT/SAT, GPA or World Language requirement for any Honors Diploma.

Options:

- College Credit Plus 12 total CCP credit hours
- Advance Placement Three courses with score of 3 or higher on AP tests
- Career-Technical Assurance Guide (CTAG) 12 total credits
- Apprenticeship/Pre-Apprenticeship Completion or evidence of acceptance
- WorkKeys Score of 6 or higher on all tests
- Armed Services Vocational Battery Score of 50 or above on ASVAB
- Work-Based Learning 250 total hours of work-based learning

<u>Utica High School</u> Course Descriptions

* A specific course listed in the course guide may not be taught in a given year due to small numbers of students registering for the course, a lack of certified staff, or administrative decisions. Please check the scheduling sheet for available courses.

Agricultural Education

Agriculture, Food and Natural Resources (530)Agricultural and EnviroAnimal and Plant Science (533)Natural Resources (534)Business Management for Agricultural (537)Science and TechnologLivestock Selection, Nutrition, and Management (540)FFA Leadership (541)

Agricultural and Environmental Systems Capstone (531) Natural Resources (536) Science and Technology of Food (538) FFA Leadership (541)

Program Description

The Agricultural Education Program is much more than a class. Classroom instruction gives students the knowledge and skills they need for success in today's world, and students get a chance to practice and apply these knowledge and skills in their Supervised Agricultural Experience Projects (SAE) and through the National FFA Organization. When the three parts are properly integrated, student education is maximized. Students learn important academic, career, technical, and life skills when all types of instruction are used. To make the most of the Agricultural Education Program, all students should participate in FFA and have an SAE project.

SAE

(Supervised Agricultural Experience)

An SAE project is any experience outside of regularly scheduled class time in which the student gains new skills or practices skills in agriculture. Students could hold an ag related job, job shadow an Ag professional, or own any agribusiness enterprise such as an animal or plant project or agriculture service business. Student can also hold a position that is not directly related to agriculture. For example, students could use babysitting, tutoring another student, or doing work around the house as their SAE. The student should select their project based on their career and interests. The type of project is up to the student.

Students should have at least one SAE project each year that they are enrolled in the Ag Ed/FFA program. Students may be required to complete an Agriscience Fair Project.

Ag Ed Classes

Public Law 740 defines SAE and FFA as integral parts of Agricultural Education classes. Students enrolled in Ag Ed Classes will pay a \$18 fee for FFA Dues and will be required to have an SAE Project.

FFA

(Formerly Future Farmers of America, now known as the "National FFA Organization").

The Utica FFA Chapter offers a multitude of opportunities to get involved in leadership projects, community service, recreation, competitive events, scholarships, and skills development. Students do not have to participate in all FFA activities – they can pick the activities that they want to get involved in. All FFA members should plan to participate in at least 1 FFA activity each 9 weeks.

Agriculture, Food	Course 530	1 ¹ / ₄ Elective Credit *	Full Year Course	9 th – 12 th Grades
and Natural				(Best fit for 9 th Grade)
Resources				

This first course in the career field is an introduction to Agricultural and Environmental Systems. Students will be introduced to the scope of the Agricultural and Environmental Systems career field. They will examine principles of food science, natural resource management, animal science & management, plant & horticultural science, power technology and bioscience. Students will examine the FFA organization and Supervised Agricultural Experience programs. Throughout the course, students will develop communication, leadership and business skills essential to the agriculture industry. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience.

Prerequisite: None

Animal and Plant	Course 533	1 ¹ / ₄ Elective Credit *	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
Science				(Best fit for 10 th Grade)

Students will apply knowledge of animal and plant science to the agriculture industry. They will be introduced to the value of production animals relative to the agricultural marketplace. Students will engage in animal classification and selection, body systems, along with animal welfare and behavior in relation to the production of animals. Students will learn principles of plant anatomy and physiology, and the role of nutrition, deficiencies and growing environment on plant production. Throughout the course, business principles and professional skills will be examined. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience.

Prerequisite: Agriculture, Food and Natural Resources is strongly recommended

Business	Course 537	1 ¹ / ₄ Elective Credit	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
Management for				
Agricultural and				
Environmental				
Systems				

Learners will explore the components of agricultural business by developing a business plan, applying marketing and sales techniques, and identifying business structures. Learners will be presented with various leadership and management styles and will examine their impact on business. Learners will investigate how agro-security, finance, career development, and human resources are important components of business management. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience.

*This course will be offered ONLINE for students who are attending CTEC/KCCC.

Prerequisites: Junior/Senior Course Only

Livestock	Course 540	1 ¹ / ₄ Elective Credit	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades		
Selection,						
Nutrition, and						
Management						
Students will identify and apply principles and routine husbandry practices to production animal populations.						
Topics will include principles of nutrition, feed utilization, animal welfare, selection and management of						
facilities, and herd populations. Students will apply knowledge of production animal care to enhance animal						
growth, selection of breeding stock, and management practices. Throughout the course, students will develop						
management plans reflecting practices for care and legal compliance. When joining the course, students will						
also become member	rs of the Natior	al, State, and Local FFA cha	apter. Students are re	equired to have a		

Supervised Agricultural Experience.

Prerequisites: Agriculture, Food and Natural Resources is strongly recommended

FFA Leadership	Course 541	1 Elective Credit	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
This class is designed to equip EFA executive team members and unperclassmen with the tools to enhance their				

This class is designed to equip FFA executive team members and upperclassmen with the tools to enhance their leadership skills and styles. Students will gain knowledge and skills in professional development, interviewing, and responsibility. Students will gain teamwork skills and build self-confidence.

Prerequisites: FA Executive Team Member or Junior/Senior who has taken at least two agriculture classes. Based on teacher approval.

Agricultural and	Course 531	1 ¹ / ₄ Elective Credit	Full Year Course	12 th Grade
Environmental				
Systems Capstone				

The capstone course is an opportunity for students to solve problems and demonstrate that they have achieved the requisite knowledge and skills in their chosen Agricultural and Environmental Systems career field pathway. The course is designed to assess cognitive, affective and psychomotor learning and to do so in a student-centered and student-directed manner. The capstone requires the application of learning to a project that serves as an instrument of evaluation. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience. ***This course will be offered ONLINE for students who are attending CTEC/KCCC.**

Prerequisite: Agriculture, Food and Natural ResourcesTHIS IS A SENIOR ONLY COURSE!

Natural Resources	Course 536	1 ¼ Elective Credit *	Full Year Course	11 th - 12 th Grade
Students will study relationships between organisms and their environment. Principles of biogeochemical				

Students will study relationships between organisms and their environment. Principles of biogeochemical cycles, air-water-land relationships, non-point pollution, and wetlands will be applied. Students will examine fundamentals of resource development, agriculture sustainability, energy needs and pollution control. They will analyze and interpret data gathered from studies on the ecosystem. Throughout this course, students will develop responses to environmental problems and develop management strategies for responsible conservation and resource development. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience.

Prerequisite: Agriculture, Food and Natural Resources is strongly recommended

Science and	Course 538	1 ¹ / ₄ Elective Credit *	Full Year Course	11 th - 12 th Grade
Technology of				
Food				

Students will examine the research, marketing, processing and packaging techniques applied to the development of food products. Learners will examine principles of food preservation techniques and determine correlations to food sensory, shelf life and food stability. Learners will examine and develop food safety, sanitation, and quality assurance protocol. Government regulations and food legislation will be examined and the implications to food science and technology will be identified. When joining the course students will also become members of the National, State, and local FFA chapter. Students are required to have a Supervised Agricultural Experience.

Prerequisite: Agriculture, Food and Natural Resources is strongly recommended

*Any combination of 2 of the starred courses, students will be able to earn their 3rd science credit for graduation requirements.

Drawing & Painting I (611) Drawing & Painting II (612) Drawing & Painting III (613) Visual Art Composition (618)

Ceramics & Sculpture I (614) Ceramics & Sculpture II (615) Ceramics & Sculpture III (616) Digital Photography (610)

Drawing &	Course 611	¹ / ₂ Fine Arts Credit	Semester Course	9 th – 12 th Grades
Painting I				
Beginning Drawing & Painting will cover the 2-dimensional study of drawing and painting, composition,				
elements of design, color theory, and visual artists. This class will cover how to use drawing/painting materials				
such as pencils, colored pencils, watercolor and acrylic paints. Sketchbooks are required for this course.				
Class Fee: \$30.				

Prerequisite: None

Drawing & Course 612 ¹ / ₂	² Fine Arts Credit	Semester Course	$9^{\rm m} - 12^{\rm m}$ Grades
Painting II			

Intermediate Drawing & Painting is a continuation of Beginning Drawing/Painting with more advanced techniques being taught. This class will cover composition, elements of design, color theory, and visual artists. Sketchbooks are required for this course. Class Fee: \$30.

Prerequisites: Drawing/Painting I

Drawing &	Course 613	¹ / ₂ Fine Arts Credit	Semester Course	10 th – 12 th Grades
Painting III				

Advanced Drawing & Painting is a continuation of Intermediate Drawing/Painting with more advanced procedures being taught. This class will focus on creating a portfolio and working in a collection or set of works. Juniors and Seniors may retake the advanced drawing and painting class without credit (audit), under these conditions; space must be available, the art teacher must give permission, and fees must be paid. Sketchbooks are required for this course. Class Fee: \$30.

Prerequisites: Both Drawing/Painting I and II

Ceramics &	Course 614	¹ / ₂ Fine Arts Credit	Semester Course	9 th – 12 th Grades		
Sculpture I						
Beginning Ceramics will cover the 3-dimensional study clay. We will focus on pinch, molding, slab, and coils						
in this class. We will make functional and non-functional pieces. This class will cover composition, elements of						
design, artists, and how to use the clay and appropriate tools/ materials. Class Fee: \$30						

Prerequisite: None

Ceramics &	Course 615	¹ / ₂ Fine Arts Credit	Semester Course	$9^{\text{th}} - 12^{\text{th}}$ Grades	
Sculpture II					
Intermediate Ceramics is a continuation of Beginning Ceramics with more advanced techniques taught. Instruction in class will cover the 3-dimensional study of clay and will focus on wheel thrown and hand-built pieces. This class will cover composition, elements of design, artists, and how to use clay tools/materials. Sketchbooks are required for this course. Class Fee: \$30.					
Prerequisites. Cera	mias & Soulptu	ro I			

Prerequisites: Ceramics & Sculpture I

Ceramics &	Course 616	¹ / ₂ Fine Arts Credit	Semester Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
Sculpture III				

Advanced Ceramics & Sculpture is a continuation of Intermediate Ceramics with more advanced techniques being taught. Instruction in class will cover the 3-dimensional study of various materials. Clay is our main medium for this course. This class will cover composition, elements of design, artists, and how to use ceramics tools/ materials. Juniors and seniors may retake the advanced ceramics and sculpture class without credit (audit), under these conditions; space must be available, the art teacher must give permission, and fees must be paid. Get permission from the Mrs. Zimmerman first then the guidance office to sign up for the audit. Class Fee: \$30.

Prerequisites: Both Ceramics & Sculpture I and II

Visual Art	Course 618	1 Fine Arts Credit	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
Composition				
This course offers st	udents an exter	nded studio time to work on	their visual arts portf	olios. Students taking this
course are dedicated	l to the arts and	may be extending their focu	us into college work. '	The development of
student's portfolios	will be explored	d through several mediums	and techniques. Stude	ents will have the creative
freedom to design p	rojects with the	help of the teacher to indiv	idualize their projects	. Students will create in-
depth projects that manage time, resources, the process, self-critiques, and a final product to display. This				
course will include class critiques and reflections, demonstrations, research, presentations, career building				
skills, and portfolio	basics. Sketchl	book and large portfolio are	required for this class	s. Class Fee: \$30.
Prerequisites: Both	Drawing/Paint	ing I and II and Teacher Pe	rmission Only

		23	<u> </u>	ographs and products, to create
digital portfolio proje	cts and presentati	ons. Students will study vario	us professional photogr	anhers throughout world
		wn use of the camera and/or sc		

a digital portfolio over the course of the year. Additionally, this class will have guest photographers to learn the business side of photography and how to self-promote and make connections/contacts. Classes will aide in the photography used in the UHS yearbook and Redskin Rumbling throughout the year. Students will be responsible to take photos in an out of class, working on projects without being promoted and being a self-advocate.

Lab Fee: \$30.00 and access to a DSLR Camera daily - Course contract will be signed by parent/guardian.

Prerequisites: None. Class size is limited.

Work Based Learning

Work Based Learning 11 (570) Work Based Learning 12 (571) Work Based Learning Experience (572)

Work Based	Courses	Work Based Learning	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
Learning &	WBL 11- 570	Class- 1 Credit		
Work Experience	WBL 12- 571	WBL Experience- 2		
	WBL Ex 572	Credits		

Work Based Learning includes Related and Work Experience is for students who are recommended and meet qualifications for the program. Students spend one-half day in the classroom, (or as needed to complete graduation requirements), studying subjects related to on-the-job experience as well as other high school subjects. The other half-day the students receive on-the-job experience in actual occupational activities with the help of a cooperating employer and teacher-coordinator. The major objective is to develop, through work experience, the necessary skills, abilities, and attitudes, which will enable students to become gainfully employed.

Prerequisite: Junior/senior standing and recommendation and acceptance of teacher upon application.

<u>Computer Technology</u>

Intro to Computer Science I (651) Computer Science II (652) Computer Technician I (672) Computer Technician II (673) Robotics (670) Computer Technology Assistant I (Hardware) (660) Computer Technology Assistant II (Hardware) (661) Computer Technology Assistant III (Operating Systems) 662) Computer Technology Assistant IV (Operating Systems) (663) Fundamentals of Cybersecurity (680)

Intro to	Course 651	¹ / ₂ Computer	Semester Course	$9^{th} - 12^{th}$ Grades
Computer		Technology Credit		
Science I				

Software Applications I is a computer science course introducing the basics of programming with Karel the Dog, the basics of designing a web page, understanding the hardware of a computer, and how information is represented digitally and sent over the Internet. Students will learn to code using blocks to drag and drop, but they can switch between blocks and text as desired. Students will create a personal portfolio website showing projects they build throughout the course. With a unique focus on creativity, problem solving and project-based learning, Computing Ideas gives students the opportunity to explore several important topics of computing using their own ideas and creativity to develop an interest in computer science that will foster further endeavors in the field. ***Graduation requirement for class of 2025***

Prerequisite: None

Computer	Course 652	¹ / ₂ Computer	Semester Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
Science II		Technology Credit		

In Software Applications II, students will learn to code as it relates to music, art, and sports. Using a blockcoding environment, students create music beats, explore the digital art medium by building coding programs that create collages, and develop their own sports video games and simulations using code. Students will create a personal portfolio website showing projects they build throughout the course. With a unique focus on creativity, problem solving and project-based learning.

Prerequisite: Intro to Computer Science I

CTA I	Course 660	¹ / ₂ Computer	Semester Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
(Hardware)		Technology Credit		

CTA I introduces students to the basics of managing, maintaining, and troubleshooting hardware. Students will be introduced to hardware, form factors, power supplies, motherboards, processors, memory and hard drives. This course is recommended for students who plan to pursue a career in computers. Students taking this class are strongly encouraged to have a study hall in addition to this class. Students must fill out an application for this course with the course instructor.

Prerequisite: Intro to Computer Science I and Instructor Approval

CTA II	Course 661	¹ / ₂ Computer	Semester Course	$10^{\text{th}} - 12^{\text{th}}$ Grades
(Hardware)		Technology Credit		
CTA II introduces st		0 0,	ing, and troubleshoot	ing hardware. Students will

be introduced to installing input/output devices, multimedia devices, troubleshooting, printers etc. This course is recommended for students who plan to pursue a career in computers. Students taking this class are strongly encouraged to have a study hall in addition to this class. Students must have instructor sign off for this course.

Prerequisite: CTA II (Hardware) and Instructor Approval

CTA III	Course 662	¹ / ₂ Computer	Semester Course	11 th – 12 th Grades
(Operating		Technology Credit		
Systems)				

CTA III introduces students to the basics of managing, maintaining, and troubleshooting software. Students will be introduced to networking as well as reviewing material from previous CTA courses. This course is recommended for students who plan to pursue a career in computers. Students taking this class are strongly encouraged to have a study hall in addition to this class. Students must have instructor sign off for this course.

Prerequisites: CTA I and II (Hardware) and Instructor Approval

CTA IV	Course 663	¹ / ₂ Computer	Semester Course	11 th – 12 th Grades
(Operating		Technology Credit		
Systems)				

CTA IV introduces students to the basics of managing, maintaining, and troubleshooting software. Students will be introduced to software: comparing operating systems, how an OS works, boot process, supporting hard drives, Windows on networks and the Internet, Macs and ipads. This course is recommended for students who plan to pursue a career in computers. Students taking this class are strongly encouraged to have a study hall in addition to this class. Students must have instructor sign off for this course.

Prerequisite: CTA III (Operating Systems) and Instructor Approval

Computer	Course 672	¹ / ₂ Computer	Semester Course	12 th Grade
Technician I		Technology Credit		

Computer technician I is designed for students who have completed four semesters of computer technology, including CTA 1-4. Students will work as computer technicians throughout the building and/or district applying the cumulative knowledge from their computer technology background. Students will further develop professional skills required as a computer technician. Students will focus on independent areas of interest within computer technology. This course is recommended for students who want to pursue a career in computer technology. Students must have instructor sign off for this course.

Prerequisites: CTA I-IV and Instructor Approval

Computer	Course 673	¹ / ₂ Computer	Semester Course	12 th Grade
Technician II		Technology Credit		
0 1 1	TT 1 1 1	CC 1 1 1	1,10,50	1

Computer technician II designed to offer students who have completed Computer Technician 1 additional opportunities to master their skills. Students will work as computer technicians throughout the building and/or district applying the cumulative knowledge from their computer technology background. Students will further develop professional skills required as a computer technician. Students will focus on independent areas of interest within computer technology. This course is recommended for students who want to pursue a career in computer technology. Students must have instructor sign off for this course.

Prerequisite: Computer Technician I and Instructor Approval

Robotics	Course 670	¹ / ₂ Computer	Semester Course	9 th -12 th Grade
		Technology Credit		
Students will be wo	orking with VEX	Robotics equipment and	VEXCode coding sys	stems. VEX Robotics is a
course based arour	nd learning abou	t how robots' function a	nd how to build then	n. Students will build the
VEX robots to comp	olete challenges	and compete against the	ir classmates to sho	w the capabilities of
robots. Students in this class will get to explore how robotics can be used is various ways; build low-cost				
scientific instruments, architect prototypes, musical instruments, the possibilities are endless!				
Prerequisite: None

English 9	Course 010	1 English Credit	Full Year Course	9 th Grade	
English 9 - This full-year course is required of all freshmen. This course places emphasis upon the					
fundamentals of gran	mmar, the sentend	ce, and paragraph develop	ment. Writing basic s	tyles of compositions, such	
as argumentative and	d thematic essays	, are part of the class. The	literature portion of t	he class is designed to	
increase reading abil	lity and comprehe	ension, as well as the capa	city for relating litera	ture to personal experience.	
Emphasized are the	short story, novel	, drama, poetry, and non-	fiction. This course er	nphasizes building	
essential skills in listening, speaking, reading, writing, and critical thinking, all of which are essential to helping					
students become effective learners.					
Dronoquigita. None					

Prereq	uisite:	None	

English 9	Course 011	1 English Credit	Full Year Course	9 th Grade	
Advanced					
English 9 Advanced – This course consists of the same basic material as listed for English 9 regular; however,					
this course will inclu	ide more exposur	e to recommended classic	literature. Reading an	nd writing projects will be	
more intense, and ex	pectations for ind	dependent study will be hi	gher. This course wil	l also stress further	
vocabulary develop	ment and writing	enhancement. Students sh	ould expect independ	ent reading, accelerated	
pacing, and increase	d rigor.				
Prerequisites: 8 th g	grade English teac	cher recommendation w/ a	t least a "B" average	in 8 th grade English	
	-				
English 10	Course 015	1 English Credit	Full Year Course	10 th Grade	
English 10 is a requi	ired course of all	sophomores. This course	places a strong emph	asis upon writing and	
reading skills. Liter	ature for the class	s includes: essays, short st	ories, the novel, dram	a, and poetry; while	
projects include essa	ays, research proj	ects and a report, presenta	tions, career research	and technology	
assignments.	assignments.				
-					
Prerequisite: English 9					
English 10	017	1 English Credit	Full Year Course	10 th Grade	
Advanced					
This course will con	sist of the same b	asic material as that listed	l for English 10 regula	ar; however, a greater	

emphasis will be placed on the presentation of original work along with a more intense, independent reading program. A larger variety of essays will be taught, allowing students to sharpen writing skills necessary for their futures. Students should expect independent reading, accelerated pacing, and increased rigor.

Prerequisite: 9th grade English teacher recommendation

<u>Foreign Language</u>

Spanish I (081) Spanish II (082) Spanish III (083) Spanish IV (084) Spanish V (085)

Spanish I	Course 081	1 Foreign Language	Full Year Course	8 th – 11 th Grades
		Credit		

In Spanish I, communications development is achieved through the use of the four language skills: listening, speaking, reading and writing. The student will learn common beginning vocabulary, grammar rules and how to conjugate verbs in the present tense. Sentence structure will be discussed and by the end of the year, the student should be able to read and write a simple paragraph in Spanish and carry on a simple conversation in Spanish. Cultural awareness is developed through the use of films and projects. Personal development is made through working in groups, reciting without embarrassment, listening patiently to one another, and through the positive experience of being successful with a foreign language.

Prerequisite: Incoming 9th grade students must be recommended for English 9 Advanced. All other students must meet the following criteria: an A or B in English recommended, C average in English required.

Spanish II	Course 082	1 Foreign Language Credit	Full Year Course	9 th – 12 th Grades		
culture, but especiall	Spanish II is the second course in a foreign language sequence aimed at anyone with an interest in another culture, but especially useful to those preparing for college. Many colleges require a minimum of two years of high school foreign language for entrance. Reading, writing, listening, speaking, and culture are all included in					

Prerequisite: a grade of a C or above in Spanish I

Spanish III	Course 083	1 Foreign Language	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$ Grades	
		Credit			
Spanish III is a conti	inuation of the de	evelopment of communica	tions skills and cultur	al awareness. The student	
will increase knowle	edge of advanced	grammatical structures; n	nore verb tenses will b	be introduced along with	
more advanced vocabulary. The student will be able to read longer intermediate level reading selections,					
communicate in discussions and write compositions in the Spanish language. This course is graded on a					
weighted system. Please refer to the weighted academic point system in this course guide for a more detailed					
explanation of the sy	ystem.				

Prerequisite: a grade of a C in Spanish II

Spanish IV	Course 084	1 Foreign Language	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades	
		Credit			
Spanish IV is further	ring the developr	nent of communications s	kills and cultural away	reness. The student will	
know all verb tenses	know all verb tenses, communicate in advanced discussions, write advanced compositions, and read advanced				
reading selections by the end of the fourth year. They will also have a better understanding of the Spanish-					
speaking cultures. This course is graded on a weighted system. Please refer to the weighted academic point					
system in this course guide for a more detailed explanation of the system.					

Prerequisite: B average or higher in Spanish III

<u>Health & High School 101</u>

Health (631)

High School 101 (665)

		1	1	1	
Health	Course 631	¹ / ₂ Health Credit	Semester Course	9 th Grade	
Health is graduation requirement for all Utica High School students. The goal of this course is to					
encourage student	ts to make healt	hy choices to improve	their overall level of	of wellness and reduce	
the risk of disease	. The course wi	ill focus on personal ha	bits that promote he	ealthy lifestyles that	
reduce the risk of	disease. Topics	will include stress man	nagement, weight n	nanagement, nutrition,	
the effects of suga	ar & caffeine on	the body, heart rate an	d the benefits of ph	nysical activity. Students	
will explore how	media messages	s impact body image ar	nd self-esteem and t	the dangers of using	
alcohol, drugs, tol	bacco and vapir	ng products. All student	ts will complete CP	R training and learn	
about organ, eye a	and tissue donat	tion to meet state requir	rements. The topics	and activities of this	
course align with	the National He	ealth Standards.			
Prerequisite: None					
TT' 1 0 1 1 101	0 (17	1/ 17: 1 0 1 1 101		oth C 1	
High School 101	Course 665	¹ / ₂ High School 101 Credit	Semester Course	9 th Grade	
High School 101 is graduation requirement for all Utica High School students. High School 101 is					
designed to help f	reshman studen	its gain the necessary sl	kills to be successfu	ıl in high school.	
Students will expl	lore the student	handbook, study skills	, time management	, goal setting, GPA, test-	
toling strategies	annon avelanati	on Internet sofety hul	living and athen used	ful toming during the	

taking strategies, career exploration, Internet safety, bullying and other useful topics during the semester class. Early in the year, students will learn how to navigate and use a variety of apps on their iPads as tools for use in the classroom. Additional topics that become pertinent to freshman students will be added throughout the semester as deemed necessary.

Prerequisite: None

<u>Mathematics</u>

Math I (302) Math II (322) Math III (315) Financial Algebra (331)

Algebra I (321) Algebra II (325) Algebra II Adv. (327) Geometry (323) College Algebra (CCP) (328) Geometry Adv. (324) Pre-calculus (326) Transition to College Math (329) Calculus (CCP) (332) Introduction to Statistics (CCP) (330)

Math I (Algebra I)Course 3021 Mathematic CreditFull Year Course9th – 12th GradesMath 1 covers the concepts and real-life applications of linear functions, quadratic functions, exponential
functions, and statistical analysis. The focus of this course is to continue extending their proficiency of previous
content as we as mastering making sense of mathematics, problem solving, modeling, and abstract thinking.
Focus for the course based on the Ohio Standards for Learning. A scientific calculator is required for this course.Prerequisite: None

Math II (Algebra II) Course 322 1 Mathematic Credit Full Year Course $10^{\text{th}} - 12^{\text{th}}$ Grades

Math II reviews the essentials of Math I, while extending those concepts. Topics include linear, quadratic, and exponential functions, systems, polynomial and rational algebraic expressions, exponents and logarithms, complex numbers, probability, and trigonometry. Focus for the course based on the Ohio Standards for Learning. A scientific calculator is required.

Prerequisite: Passed Math I

Math III	Course 315	1 Mathematic Credit	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
(Geometry)				

Math III extends into the study of Geometry, providing students the opportunity to describe and apply the properties of similar and congruent figures, to apply the Pythagorean Theorem, to understand angles, to compare parallel and perpendicular lines, to explore compass and straight edge constructions in the context of geometric theorems, and to use a variety of techniques of proof. Students must be well organized and complete acceptable homework. Math III is intended to meet the common core requirements for topics in geometry. A scientific calculator is required.

Prerequisite: Passed Math II

Financial AlgebraCourse 3311 Mathematic CreditFull Year Course11th - 12th GradesFinancial Algebra is an algebra-based, application-oriented course that addresses college preparatory
mathematics topics under seven financial umbrellas: Banking, Investing and Modeling a Business, Employment
And Income Taxes, Automobile Ownership, Independent Living, Retirement Planning and Household
Budgeting. Students us a variety of problem-solving skills and strategies in real-world contexts.Prerequisite:Passed Math III or Algebra 2

Algebra ICourse 3211 Mathematic CreditFull Year Course8th – 12th GradesAlgebra covers the concepts and real-life applications of linear functions, quadratic functions, exponential
functions, and statistical analysis. Students will be able to demonstrate mastery in making sense of mathematics,
problem solving, modeling, and abstract thinking. Focus for the course based on the Ohio Standards for
Learning.

Prerequisite: C Average or better in 8th grade Math / Teacher Recommendation from Math I

Algebra IICourse 3251 Mathematic CreditFull Year Course10th – 12th GradesAlgebra II quickly reviews the essentials of Algebra I, while extending those concepts greatly. Students
considering science or math-related college studies and/or are on the Calculus or Pre-Calculus track should
buckle-down and master the material in this course. Topics include linear and quadratic functions, systems,
polynomial and rational algebraic expressions, exponents and logarithms, complex numbers, probability and
trigonometry. A scientific calculator is required; however, a graphing calculator is highly recommended.Prerequisite: C Average or better in Algebra I and Geometry or teacher approval

perpendicular lines, to explore compass and straight edge constructions in the context of geometric theorems, and to use a variety of techniques of proof. The class will move at a more accelerated pace and will solve more					
challenging problems encountered in Geometry. Focus for the course is based on the Ohio Standards for Learning. A scientific calculator is required.					
		*			
Prerequisites: Tead	cher Recommend	ation and a B Average or	Better in Algebra I		
Transition to	Course 329	1 Mathematic Credit	Full Year Course	12 th Grade	
College Math					
0	l dents who want to	prepare themselves for the	he core of a college m	athematics course and	

possibly test-out of some basic college courses. Students who do not want to enter a mathematics course, and in college might be interested in this course. It provides for a more in-depth approach to algebraic and geometric applications to concrete problem settings. Graphing and calculators play a key role in the course. They provide concrete representation of relationships and access to demanding, realistic problems.

Prerequisites: Passed Algebra II or Math 3 (w/ teacher recommendation)

Pre-calculusCourse 3261 Mathematic CreditFull Year Course $11^{th} - 12^{th}$ GradesPre-calculus completes the formal study of the functions begun in Algebra I and Algebra II. Students focus on
modeling, problem solving, data analysis, trigonometric and circular functions and their inverses, polar
coordinates, complex numbers, conics, and quadratic relations. This course is graded on the weighted system.

Prerequisites: Algebra I, II, Geometry, and Teacher approval

College AlgebraCourse 3281 Mathematic CreditSemester Course $11^{th} - 12^{th}$ GradesThis course is a study of algebraic functions including polynomial, rational, radical, exponential,
logarithmic, and piece-wise defined functions. Topics investigated will include domain, range, graphs,
inverses, operations, equations, inequalities and their applications. Students enrolled in this course will
earn 3 semester hours of college credit upon passing. Students will need to score a 22 on the math section
of the ACT or have a passing score on the placement test to enroll in this course. A graphing calculator is
required. This course is graded on a weighted system

Prerequisites: Completed Algebra I, II, and Geometry (Earned College Readiness placement score) Enrollment is dependent upon meeting COTC criterion for College Credit Plus.

Intro to Statistics	Course 330	1 Mathematic Credit	Semester Course	$11^{\text{th}} - 12^{\text{th}}$ Grades		
This is a non-calculus, introductory course in descriptive and inferential statistics. Concepts are explained						
intuitively and sup	ported by exam	oles. The applications ar	e general in nature, a	and the exercises include		
problems from agr	iculture, biology	, business, economics, ec	lucation, environme	ntal studies, psychology,		
engineering, medic	engineering, medicine, sociology and computer science. Students enrolled in this course will earn 3					
semester hours of college credit upon passing. Students will need to score a 22 on the math section of the						
ACT or have a passing score on the placement test to enroll in this course. A graphing calculator is						
required. This cour	rse is graded on	a weighted system.				

Prerequisites: Completed Algebra I, II, and Geometry (Earned College Readiness placement score) Enrollment is dependent upon meeting COTC criterion for College Credit Plus.

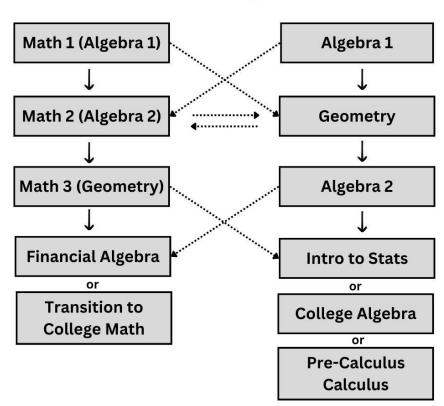

Calculus	Course 332	1 Mathematic Credit	Full Year Course	11 th Grade with
				Recommendation OR 12 th
				Grade

Calculus covers the concepts of limits, derivatives, integrals, and their applications. Limits of functions are covered, including continuity of functions. The definition of the derivative as well as rules for differentiation develop the ability to find the derivatives of functions, including polynomial, rational, algebraic, trigonometric, inverse trigonometric, exponential, logarithmic, hyperbolic and inverse hyperbolic functions. Derivatives are used in curve sketching as well as in solving applied problems. The Mean Value Theorem and Newton's Method for optimization are covered. Definite and indefinite integrals, the Fundamental Theorem of Calculus, the substitution method and area between curves are discussed.

Students enrolled in this course will earn 5 semester hours of college credit upon passing. **This course is graded on the weighted system.**

Prerequisites: Students will need to score a 28 on the math section of the ACT or have a passing score on the placement test to enroll in this course and must have earned a C or better in Pre-Calculus. Enrollment is dependent upon meeting COTC criterion.

UHS Math Progressions

<u>Miscellaneous</u>

Career Readiness (426) Publications & Design 1 (424) Leadership Development (429) Financial Literacy (430) College & Career Planning (427) Publications & Design 2 (425) ACT Test Prep (668)

Publications &	Course 424	1 Elective Credit	Full Year Course	9 th – 12 th Grades
Design 1				

Publication students will learn the basics of gathering information and turning it into a story through different outlets such as the *Redskin Rumbling Newsletter*, and various school social media sources. Photography, editing, headline and caption writing, editorials, layout design, fundraising, media ethics will also be included. Students will learn about the different basic skills and styles of photography, Publisher, Canva, and other formats. Grades are based on participation/engagement, meeting deadline, creating quality work, and fundraising. Publications is looking for school spirited students who could have interests in being artistic, creative, and showing casing/reporting on our schools' events and departments. Lab Fee \$20.

Prerequisite: Students must apply and be selected as a member of this class. Class size is limited.

Publications &	Course 425	1 Elective Credit	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$
Design 2				

Publication 2 students will build upon the skills and techniques previously learned in Publications 1 and focus on creating a school yearbook for the student body. Students will develop ownership of pages, use more advanced photography, editing, headline and caption writing, layout design, fundraising, and media ethics will also be included. Students will learn basic skills of photography, Publisher, Canva, and other formats. Grades are based on participation/engagement, meeting deadline, creating quality work, and fundraising. Publications is looking for school spirited students who could have interests in being artistic, creative, and showing casing/reporting on our schools' events and departments. Lab Fee \$20.

Prerequisite: Publications 1 Course or by teacher permission. Class size is limited.

Career Readiness	Course 426	¹ / ₂ Elective Credit	Semester Course	12 th Grade	
Career Readiness is a semester course designed exclusively for seniors preparing for the working world after					
graduation. The class will aim to prepare future graduates by teaching topics identified as the "soft skills"					
necessary for successful employment as identified by various business leaders. Topics may include: social					
graces, business communication, time management, teamwork/team building skills, leadership skills, customer					
service, job seeking skills, money management, and career development.					

Prerequisite: Senior Standing

College & Career	Course 427	¹ / ₂ Elective Credit	Semester Course	11 th Grade	
Planning					
In this course, students will continue to research careers and occupations, review postsecondary admissions qualifications and process, and develop interviewing skills. Additional topics will include professionalism, employability skills, leadership, resume and college essay writing, ACT prep, communication and etiquette using electronic media and completion of job and college applications.					
Prerequisite: Junior Standing					

Leadership	Course 429	¹ / ₂ Elective Credit	Semester Course	9 th – 12 th Grade
Development				
Through reading, researching and school related projects; students will develop the necessary knowledge,				
attitudes, and skills t	to fulfill leadershi	ip opportunities in the sch	ool setting. Students v	will study leadership,
effectiveness; assess their individual leadership styles and skills; and establish personal goals and understanding				
of leadership effective	veness. An emph	asis will be placed on deve	eloping effective com	munication skills, habits
characteristic of effective teens, and group skills including team building, conflict resolution, and stress				
management. Students will be asked to participate in group projects that benefit others in order to apply effective				
decision-making, communication, and critical thinking.				

Prerequisite: None

ACT Test Prep	Course 668	¹ / ₂ Elective Credit	Semester Course	$10^{\text{th}} - 12^{\text{th}}$ Grade	
This class is designed to help students prepare for the ACT. Students will learn how the test is scored, strategies					
for test taking, and numerous tips on how to improve your own ACT score. The students will practice these					
strategies on the ACT prep website and real ACT tests in the classroom. Each student will compete 2 actual					
ACT practice tests, complete with knowing their composite score on both. This class will improve your score!					

Prerequisite: None

Financial	Course 430	¹ / ₂ Elective Credit	Semester Course	9 th – 12 th Grade	
Literacy					
Students will learn th	Students will learn the fundamental understanding of financial literacy concepts. They will have the skills				
needed for them to b	e informed and s	avvy consumers in today's	s fast paced and ever	-changing society. General	
topics of the course will include: financial responsibility & decision making, planning & money management,					
informed consumer, investing, credit & debt, and risk management & insurance. Students will apply the					
concepts to real world skills and content.					
Financial Literacy is a graduation requirement for the class of 2026 and beyond.					

Prerequisite: None

<u>Music</u>

Band (644) Marching Band Auxiliary (645) Music Theory (648) Intro to Band (641) Guitar I (642) Guitar II (643) Concert Choir (646) Kantorians (640) Popular Trends in Music (642) History of Musical Theater (649) Modern Musical Performance (650)

Band	Course 644	1 Fine Arts Credit	Full Year Course	$9^{\text{th}} - 12^{\text{th}}$ Grades
Dunu	Course of f	1 I me I mus create	I un I cui course	

The UHS Band is for students who play a band instrument and wish to participate in a full-size instrumental group. The class will operate as a marching unit in the fall and as a concert band for the remainder of the year. Students will study a variety of literature of different styles and time periods and learn proper playing techniques. Students will also have the opportunity throughout the year to supplement their training by performing in small ensembles. After-school rehearsals and performances will be held and, unless excused by the director, attendance at these is required.

Prerequisite: None, however middle school band would be helpful

KantoriansCourse 6401 Fine Arts CreditFull Year Course $9^{th} - 12^{th}$ GradesKantorians is an honors choir. It performs two styles of music: traditional, advanced choral literature and
contemporary rock/standard music with choreography. In addition, they perform four evening concerts per year.Students must audition in the spring to earn a spot in the group for the following year. Performance attendance is
required. Class fee: \$12.00

Prerequisite: Spring Auditions

Concert ChoirCourse 6461 Fine Arts CreditFull Year Course $9^{th} - 12^{th}$ GradesConcert Choir is for students who enjoy singing and want to improve their skills. The group performs a variety
of music types and styles. They perform four evening concerts per year as well as take various field trips.Performance attendance is required. Class fee: \$12.00.

Prerequisite: None

Music TheoryCourse 6481 Fine Arts CreditFull Year Course $9^{th} - 12^{th}$ GradesMusic Theory Students will review the basics of reading music. From there we will go into intervals, chords, and sight-singing. Transpositions will also be studied, and the students will get an opportunity to both arrange and compose music. Principles of four-part writing and chordal analysis will be covered, as well as dictation of music. Test and classroom work will be the basis for evaluation. A workbook will be required for this class.

Prerequisite: Participation in Band or Choir for at least 1 year

Popular Trends	Course 642	1 Fine Arts Credit	Full Year Course	9 th – 12 th Grades
in Music				
Popular Trends in Music (formerly History of Rock) is a year-long class focusing on the origins, development,				
and expansion of popular music in America. Influential genres, artists, music, and production/distribution of				
popular music will be discussed. Students will listen to music, discuss the structure of it, and discuss the				
meaning behind the lyrics. Handouts, class notes, and listening examples will be given daily. Quizzes, tests, and				
research papers will occur weekly or monthly.				
Prerequisite: None				

Intro to Band	Course 641	¹ / ₂ Fine Arts Credit	Semester Course	$9^{\text{th}} - 12^{\text{th}}$ Grades		
In this course students will learn how to play a woodwind, brass, or percussion instrument. This course is						
intended for students who want to play an instrument but haven't participated in band yet. It is also intended for						
students who participated in band early in their academic career and wish to re-join. Students will learn the						
basics of how to play an instrument and read music. Instruments can be provided if needed. There will be no out						
of school commitments during this course. It is expected that students taking this course wish to participate in						
high school band the	high school band the following semester.					

Prerequisite: None

Guitar ICourse 642 $\frac{1}{2}$ Fine Arts CreditSemester Course $9^{th} - 12^{th}$ GradesThis one-semester course is for students with little or no previous guitar experience. Students will receive
guidance and direction in playing the guitar at a beginning level. They will learn many of the different styles,
skills, and techniques required to become a successful guitarist. Students will need to have access to a six-string
acoustic or electric guitar. Buying, renting, or borrowing a guitar is required component of this class.

Prerequisite: None

Guitar IICourse 643½ Fine Arts CreditSemester Course9th – 12th GradesThis one-semester course is for students with some previous guitar experience. It is a continuation of Guitar I.Students will refine their understanding of the different styles, skills, and techniques required to become asuccessful guitarist. Students will need to have access to a six-string acoustic or electric guitar. Buying, renting,or borrowing a guitar is required component of this class.

Prerequisite: None

History of	Course 649	¹ / ₂ Fine Arts Credit	Semester Course	9 th – 12 th Grades	
Musical Theater					
History of Music Theatre is a semester-long course open to students in grades 9-12. The class is an overview of					
the history of Broadway musicals. We focus on ten shows that represent a variety of styles, eras, and genres					
of musical theatre. Evaluation is done through notebook checks, quizzes, and tests.					
Prerequisite: None					

Modern Musical	Course 650	1 Fine Arts Credit	Full Year Course	9 th – 12 th Grades	
Performance					
This music performa	This music performance class is an extension of Guitar, Band, and Choir classes. Students will be formed into				
"bands", learn cover	r versions of popu	lar songs, and perform the	em. Students are expe	cted to know how to play an	
instrument or sing p	instrument or sing prior to taking this class. Students will only be permitted to perform on an instrument if they				
have received musical instruction on that instrument in the past. This is a course which may be taken multiple					
years. New music will be performed each year.					
Prerequisite: 1 Full	Prerequisite : 1 Full year of guitar, band, or choir				

<u>Physical Education</u>

Recreational PE (621) Advanced Weight Lifting (624) Yoga (625) Competitive PE (623) Personal Fitness (622)

Recreational PE	Course 621	¹ / ₄ Physical Education	Semester Course	9 th – 12 th Grades
		Credit		
Recreational PE aims to promote a desire for physical fitness, lifetime physical activity, and healthy leisure time				
habits through physi	habits through physical activities, sports, and games. Activities will include numerous team, partner, and			
individual based gar	individual based games that will focus on fundamental improvement, understanding of game rules and			
procedures, and gen	eral tactics and st	rategies. The course is gea	ared toward students v	who want to learn and
practice the basics of physical activity and sport without the added pressure or stress of in class competition with				
peers. Activities are	aligned with the	five Ohio Standards for Pl	nysical Education. Sta	te fitness testing will also

be conducted at the beginning and end of the semester. Students must bring proper shoes every day to change into for class. If a student is unable to participate due to a documented medical condition, an alternative program

will be based on the medical restrictions.

Prerequisite: None

Competitive PE	Course 623	¹ / ₄ Physical Education	Semester Course	$9^{th} - 12^{th}$ Grades
		Credit		

Competitive PE is an advanced level PE class where students will be competing at a high level on a daily basis with peers in a variety of physical activities, sports, and games. Activities will include numerous teams, partner, and individual based games that will focus on advanced skill development, specific tactics and strategies for each sport, and be played at an advanced speed and up-tempo pace. The course is geared toward students who enjoy a high level of competition and want to challenge themselves in a variety of physical activities. Activities are aligned with the five Ohio Standards for Physical Education. State fitness testing will also be conducted at the beginning and end of the semester. Students must bring proper shoes every day to change into for class. If a student is unable to participate due to a documented medical condition, an alternative program will be based on the medical restrictions.

Prerequisite: None

Personal Fitness	Course 622	¹ / ₄ Physical Education	Semester Course	9 th – 12 th Grades
		Credit		
In Personal Fitness,	students will lear	n how to create, implement	nt, and follow their ov	vn personal fitness plan and
regimen. In the begi	nning of the cour	se, students will create fith	ness goals for themsel	ves, and then create a
specific plan and wo	orkout regimen fo	r themselves, which is cat	ered toward meeting	their own goals. For the
remainder of the sen	nester, students w	vill follow their own work	out routine every day.	Each student's workout
regimen will be appr	roved by the instr	uctor, and given guideline	es to follow. Activities	s are aligned with the five
Ohio Standards for Physical Education. Students must bring proper shoes every day to change into for class. If a				
student is unable to participate due to a documented medical condition, an alternative program will be based on				
the medical restrictions.				
Prerequisite: None				

Advanced Weight	Course 624	¹ / ₄ Physical Education	Semester Course	9 th – 12 th Grades
Lifting		Credit		

Advanced Physical Education includes weight training, flexibility, cardiovascular conditioning, plyometric training, nutrition, personal health and wellness. The student must bring shorts, wind pants, or sweatpants, a shirt, socks, and tennis shoes every day to change into for class. The students are **required** to "dress" and participate each class period. The instructor also reserves the right to remove any student with unsatisfactory effort from the class at any time.

* This class may **ONLY** be repeated with **signed** permission from the instructor.

Prerequisite: Approval by instructor

Yoga	Course 625	¹ / ₄ Physical Education	Semester Course	9 th – 12 th Grades	
		Credit			
Yoga will introduce	students to the ba	asic skills of yoga practice	e, breathing technique	s, yoga etiquette,	
terminology and relation	axation methods	of yoga to promote a desir	e for lifetime physica	l activity and healthy leisure	
habits. Students will	l enjoy the benefi	ts yoga and core training c	an provide by partici	pation in this class. The	
course will focus on	low impact activ	vities to improve overall flo	exibility, strength, con	re and cardiovascular	
endurance. Reduction	on of stress and in	creased ability to focus ca	in be an added benefit	from regular yoga practice	
which can support n	nanagement and i	mprovement of the social-	-emotional health of p	participating students.	
Students will also de	evelop an underst	anding of individual diffe	rences and acquire a r	non-competitive, positive	
self-image in regard	to their own bod	y and yoga practice. Stude	ents will be required to	o bring appropriate work out	
clothing to be worn	during class activ	vities and will be provided	a personal yoga mat.	Medical conditions do not	
exempt a student from	om the physical e	ducation requirement for g	graduation. If a studen	t is unable to participate due	
to a documented me	to a documented medical condition, modified activities will be provided based on the students' medical				
restrictions. State fitness testing will be conducted at the beginning and end of the semester and all activities will					
align with the Ohio	Standards for Phy	vsical Education.			
Prerequisite: None					

Physical Science (210) Physical Science Advanced (220) Biology (211) Biology Advanced (221) Astronomy (245) Physics Advanced (241) Anatomy & Physiology Advanced (227) Environmental Science (214) Earth Science (212) Chemistry (232) Chemistry Advanced (233) Chemistry 2 Advanced (234)

Physical Science	Course 210	1 Physical Science Credit	Full Year Course	9 th Grade
Physical Science is designed to serve as a foundation course for other high school science courses. It is a				

laboratory course that integrates principles of chemistry and physics. It emphasizes inquiry-based learning, process skills, and higher order thinking skills. Instruction is based on the Ohio Science Curriculum Standards. Chemistry units include: composition of matter, atomic structure and periodic table, and chemical bonds and reactions together with basic nuclear chemistry. Physics units include: forces and motions; conservation of energy, electricity and magnetism; and wave phenomena, characteristics, behavior, including electromagnetic and sound waves. Because experimentation is the basis of science, laboratory investigations are an integral part of this course. Investigative, hands-on laboratory activities that address the high school inquiry standards are central to effective instruction in this course.

Prerequisite: None

Physical Science	Course 220	1 Physical Science	Full Year Course	9 th Grade
Advanced		Credit		
Advanced Physical Science will cover the same basic material as regular Physical Science, but will move more				

rapidly, with the exception of independent study by the student. The focus on work, energy, and Newton's laws of motion requires a higher level of understanding in math, particularly the ability to manipulate variables in algebraic equations.

Prerequisite: B or better in 8th grade Science

BiologyCourse 2111 Life Science CreditFull Year Course9th - 10th GradeBiology covers various life science topics including cells, DNA, genetics, evolution, ecology, biomes, and how
living things interact with the environment. Investigative, hands-on laboratory activities that address the high
school inquiry standards are central to effective instruction in this course. Students will take a state-mandated
End-of-Course Examination counting toward graduation credit.

Prerequisite: Sophomore Standing or Freshmen with a B or better in 8th grade science

Advanced	Course 221	1 Life Science Credit	Full Year Course	9 th - 10 th Grade	
Biology					
Advanced Biology v	vill cover various	life science topics includi	ing cells, DNA, genet	ics, evolution, ecology,	
biomes, and how liv	ing things interac	t with the environment. In	vestigative, hands-on	laboratory activities that	
address the high sch	ool inquiry stand	ards are central to effectiv	e instruction in this co	ourse. The overall focus of	
this class will be the	interconnection of	of all living things, with a	n emphasis on the effe	ect of the human species	
historically and in the present time. Students will be expected to perform at a higher standard overall and will be					
expected to study independently outside of the classroom. Students will take a state-mandated End-of-Course					
Examination countin	ng toward graduat	tion credit. (4.25 weighted	system)		

Prerequisite: A or better in 8th grade science and/or teacher recommendation.

Environmental	Course	1 Science Credit	Full Year Course	11 th - 12 th Grade	
Science					
The goal of this cour	rse is to provide s	tudents with the scientific	principles to underst	and the interrelationships of	
the natural world, to	identify and anal	yze environmental proble	ms both natural and h	uman-made, and to examine	
alternative solutions	for resolving and	l/or preventing them. Envi	ironmental science is	interdisciplinary and	
embraces a wide var	embraces a wide variety of topics from different areas of study. Topics to be explored include environmental				
economics and polic	economics and policy, human population growth, earth's systems and resources, energy, ecology, and				
environmental health. Students will conduct field studies, research, labs, and projects.					
Prerequisites: Phys	Prerequisites: Physical Science or Chemistry and Biology				

Earth ScienceCourse 2121 Science CreditFull Year Course $11^{th} - 12^{th}$ GradesThis course is an examination of the Earth as a system within itself and as a part of the solar system, the Milky
Way Galaxy and the Universe in which the Earth exists. Within the Earth both the abiotic and biotic realms and
the interactions between them will be considered. The history of the Earth over 4.6 billion years of development
will be studied to determine the changes that have resulted in the planet humans inhabit in the present. In all
these areas this will be a science course using the principles of scientific ways of knowing the Earth and its
environments.

Prerequisites: Biology and (Physical Science or Chemistry)

Anatomy &	Course 227	1 Life Science Credit	Full Year Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
Physiology				
Advanced				

Anatomy & Physiology is an advanced course for students pursuing a career in nursing, physical therapy, or any other medical degree. In this course, students will explore the different aspects of human anatomy and how our cellular and organ systems work together. The methodology of this course will utilize lecture, research writing, dissection, and vocational field-trip experiences. Topics covered include cells, body systems (muscular, skeletal, etc), advanced evolution, genetics, and microbiology. (4.5 weighted system).

Prerequisites: Advanced Biology or Biology with teacher recommendation

Chemistry	Course 232	1 Physical Science	Full Year Course	10 th – 12 th Grades	
		Credit			
Chemistry is a math	Chemistry is a mathematics-based science. This course will introduce major chemistry principles while building				
on concepts introduc	ced in Physical So	cience. Through well-dest	igned lab experiences	students will master	
concepts, use proble	m solving skills,	and apply them to real-wo	orld situations. Invest	igative, hands-on lab	
activities that address	ss the Ohio Inquin	y standards are an integra	l part of this course. '	Topics to be covered include	
the periodic table, naming compounds and writing chemical formulas, chemical equations and reactions,					
bonding, calculation of chemical quantities, stoichiometry, properties and behaviors of gases and solutions, and					
nuclear chemistry. (4	4.25 weighted sys	stem).			

Prerequisite: C or better in Algebra I

Advanced	Course 233	1 Physical Science	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$ Grades		
Chemistry		Credit				
Advanced Chemistry	Advanced Chemistry is a mathematics-based science. This course will introduce major chemistry principles					
while building on co	ncepts introduce	d in Physical Science. Th	rough well-designed	lab experiences students		
will master concepts	, use problem so	lving skills, and apply the	m to real-world situat	ions. Investigative, hands-		
on lab activities that	address the Ohio	Inquiry standards are an	integral part of this co	ourse. Topics to be covered		
include the periodic	table, naming co	mpounds and writing che	mical formulas, chem	ical equations and reactions,		
bonding, calculation	bonding, calculation of chemical quantities, stoichiometry, properties and behaviors of gases and solutions, and					
nuclear chemistry. This is a more rigorous chemistry course, requiring additional mathematical experience, and						
a greater commitment from the student. The course includes the content described in the Chemistry course with						
additional emphasis	on advanced top	ics for the college bound.	(4.5 weighted system)		
1	1	e				

Prerequisites: B or better in Algebra I and Teacher Permission

Chemistry 2	Course 234	1 Physical Science	Full Year Course	11th - 12th Grade
Advanced		Credit		

This course is a sequel to Chemistry 1 with an emphasis on problem-solving, mathematical and real-world applications of chemistry via lab experiences. Topics included in the course are: a review of nomenclature, stoichiometry, and bonding; equilibrium; an acid base chemistry and pH; organic chemistry; thermodynamics; and electrochemistry. With the accelerated pace of an honors class, students will have opportunities to enrich their knowledge and understanding by exploring content standards at a deeper level. Projects and lab reports will be required. (4.5 weighted system)

Prerequisites: Advanced Chemistry or Chemistry with teacher recommendation; Pre-Calculus or concurrent enrollment in Pre-Calculus or AP Calculus.

Physics	Course 241	1 Science Credit	Full Year Course	11 th - 12 th Grade	
Advanced					
Physics is intended for students with an interest in the physical world and a college-oriented career path,					
especially engineering. Physics explores kinematics, dynamics, energy, waves, light, electricity, and magnetism.					
There is a strong emphasis on laboratory work and analysis. Problem solving is encouraged					
by the use of relevant physics materials and inquiry-based laboratory materials. This advanced level course					
emphasizes a mathematical approach with extensive laboratory experiences, research and					
projects. This is graded on a 4.5 weighted system.					

Prerequisites: B or better in Algebra II and Geometry or teacher recommendation

Astronomy	Course 245	1 Science Credit	Full Year Course	11 th - 12 th Grade	
Astronomy is a class designed to foster the student's interest in the universe through scientific investigations.					
The concepts will be investigated through what can be observed in the sky. Beginning with the unaided eye and					
progressing to simpl	progressing to simple instruments. The history of astronomical discoveries will give a human context for the				
material and demonstrate the interaction between scientists. The understanding of our solar system will lead					
students to an appreciation of the universe of stars, nebulae and galaxies. Cosmological themes of the beginning					
of the universe will develop an understanding of the likely futures of the universe. Throughout the course					
current events in the	e field of space ex	ploration will be presented	d and discussed.		

Prerequisites: 3 credits in any science course or concurrent enrollment while in 3rd science credit

The following pathways are reflective of typical students. Based on grades and teacher recommendations, students may move between tiers.

Recommended for general education students:

<u>9th Grade</u> Physical Science <u>10th Grade</u> Biology

<u>11th and 12th Grade</u> Chemistry Earth Science Astronomy Environmental Science

*Student can also complete their science graduation requirement by passing Physical Science, Biology, and 2 years of agricultural science.

Recommended for Honors level:

9 th Grade	10 th Grade
Biology Advanced	Chemistry Advanced

<u>11th and 12th Grade</u> Chemistry Advanced 2 Physics Advanced Anatomy & Physiology Advanced

<u>Social Studies</u>

Modern World History (120) U.S. History (121) World Geography (117) History through Film (123) Psychology (119) American Government (142) Contemporary World History (126) Adv. Modern World History (124) AP European History (124) AP Government (140) History of Sports (122) Vietnam War Analysis (125)

U.S. History Course 121 1 Social Studies Credit Full Year Course 9th Grade

Ninth grade students will chronologically study the history of the United States with an emphasis on domestic affairs from 1877 through the late 20th century. As students study historical eras, they consider the geographic, cultural, economic and governmental changes that have occurred. Students develop a deeper understanding of their role as citizens and continue to expand their command of social study skills and methods. Course topics and content are aligned with Ohio's New Learning Standards for American History and students will take a computer-based assessment at the end of the year to determine content mastery. This course is required for all 9th graders.

Prerequisite: 9th Grade Status

Modern World	Course 120	1 Social Studies Credit	Full Year Course	10 th Grade
History (1600 –				
Present)				

Tenth-grade students will chronologically study historical aspects from all over the world from the Age of Enlightenment through the late 20th century. Modern World History incorporates each of the seven social study content standards as aligned through Ohio's New Learning Standards. As students study historic eras, they consider the influence of geographic settings, cultural perspectives, economic systems and various forms of government. Students develop a deeper understanding of the role of citizens and continue to develop their research skills. This course is required for all 10th graders.

Prerequisite: 10th Grade Status

Advanced	Course 124	1 Social Studies Credit	Full Year Course	10 th Grade		
Modern World						
History						
Advanced Modern V	Advanced Modern World History consists of the same basic material listed for Modern World History; however,					
this course will include a more in-depth analysis of the history of the world from the Age of Enlightenment to						
present day. Advanced Modern World History will place an emphasis on the relationship between past events						
and current affairs; helping students answer the question "why does this matter today?". The course is designed						
to serve the needs of both college and career readiness by assisting students in understanding the diversity and						
connectedness of the world around them. Advanced Modern World History is recommended for students who						
exceled in U.S. History and/or have a strong interest in history.						
Prerequisite: U.S. H	listory teacher reco	mmendation and at least a "	B" average in U.S. Hist	ory

---------------	--------	----------

AP Government	Course 140	1 Social Studies Credit	Full Year Course	11 th Grade	
This course will be an in-depth study of government and politics in the United States. It will include both the					
study of general concepts in government and politics, and an analysis of specific examples both historical and					
current. Students sh	current. Students should have a strong background in political/historical events and a desire to look deeper into				
how these events ha	how these events have shaped the American political process. This course will require in-depth reading, writing,				
and daily participation	on in intellectual	class discussion. Current	events will play a ma	jor role in this course.	
Students must take a	an Advanced Plac	ement College Level Exa	m at the end of the co	urse for college credit.	
Prerequisite: 3.0 or	higher cumulativ	ve GPA			

World Geography	Course 117	¹ / ₂ Elective Credit	Semester Course	$11^{\text{th}} - 12^{\text{th}}$ Grades

World Geography is a semester course that will focus on numerous geography skills related to the physical earth and the people who inhabit it. The course will study different regions, countries, and cultures within the context of the contemporary world.

Prerequisite: None

Psychology	Course 119	¹ / ₂ Elective Credit	Semester Course	$11^{\text{th}} - 12^{\text{th}}$ Grades	
Psychology is the scientific study of the mind and behavior. Students will gain the basic understandings about					
various topics including patterns of life, mental health, and how social and physical environments affect					
behavior. This course involves mature class discussions about difficult topics.					
Prerequisite: None					

History of Sports	Course 122	¹ / ₂ Elective Credit	Semester Course	$11^{\text{th}} - 12^{\text{th}}$ Grades
This history elective	will examine ho	w the American culture ha	as developed a special	and unique love/ hate

This history elective will examine how the American culture has developed a special and unique love/ hate relationship with sports. Students will learn to gain a greater comprehension of the social, economic and cultural influence that sports has had on the American society. We will examine the history of many different sports, and how they have evolved throughout time. Students will do historical research through differing primary and secondary sources, videos and speeches. This course will be broken down into lectures, current events reading, examination of historical documentaries and readings, as well as class wide discussion.

Prerequisite: None

History through	Course 123	¹ / ₂ Elective Credit	Semester Course	10 th – 12 th Grades	
Film					
History through Film	History through Film is a semester course designed to evaluate historical accuracy of modern motion picture				
films. Students will be asked to think like a historian as we analyze cause, effect, sequence and correlation to					
historical events. Each film will be introduced through the use of primary and secondary sources, investigative					
research and discussion. Following the viewing of the film, students will be asked to make connections to past					
and present events, collaborate with their peers, research, write about, and discuss the film. History through Film					
allows students to delve further into historical topics and seek new understanding of challenging and less-					
understood moments in US history.					

Prerequisite: Successful completion of U.S. History

Contemporary	Course 126	¹ / ₂ Elective Credit	Semester Course	10 th - 12 th Grade	
World History					
Contemporary World History is a course designed to engage and prepare students to analyze governments,					
people and cultures	people and cultures from around the world. Instruction will begin with some basic knowledge and understanding				
of history. It will then emphasize on the structures and policies of the United States in comparison with other					
international communities. Students apply critical thinking and research skills to examine current events and					
contemporary issues, including human rights, globalization, America's role in the international economy,					
environmental issues in different regions, religion and how it is often used to facilitate and justify violence and					
behavior, "War on Terror" and more.					
Prerequisite: None					

Critical Analysis	Course 125	¹ / ₂ Elective Credit	Semester Course	10 th - 12 th Grade		
of Vietnam War						
This course will con	This course will consist of researching, learning and understanding differing areas of the Vietnam war. This					
course will allow for	course will allow for a more in depth look at the war as opposed to the general look from U.S & World History.					
The base lessons involved in the course will be Vietnamese culture and history, the French in Vietnam,						
American Cold War foreign policy, American & Vietnamese perspectives on the war, and the American Anti-						
War movement. The course will include multiple readings from first hand perspectives and a Vietnam War						
textbook. We will also study the PBS documentary, The Vietnam War, by Ken Burns and Lynn Novick, as a						
supplemental guide throughout the course.						
Prerequisite: None						

Technology Education

Machine Tools (543) Welding Technology (544) Consumer Maintenance (549) Architecture Design (547) Manufacturing Operations (548)

Machine Tools	Course 543	1 Elective Credit	Full Year Course	9 th – 12 th Grades	
This course will be an introduction to the many aspects of modern woodworking technology. Basic shop knowledge and skills will be taught using hands on practices, though the completion of a variety of woodworking projects. Shop safety and good work habits will be stressed throughout the course. This course will be a good prerequisite for those considering vocational school.					
Prerequisite: None					
Welding Technology	Course 544	1 Elective Credit	Full Year Course	9 th – 12 th Grades	
This course will be an introduction to the many aspects of modern metalworking technology. Basic shop knowledge and skills will be taught using hands on practices, though the completion of a variety of metalworking projects. Shop safety and good work habits will be stressed throughout the course. This course will be a good prerequisite for those considering vocational school.					
Prerequisite: None					
Architecture Design	Course 547	1 Elective Credit	Full Year Course	$10^{th} - 12^{th}$ Grades	
Advanced Woodworking is an upper-level course designed for the student with an interest in woodworking. In this class students will be refining there woodworking skills by building a required furniture project. Students will also be allowed to plan, create drawings, and construct a piece of furniture in the style of his/her choice. All lumber and hardware cost will be the responsibility of the student for that project. Prerequisite: Machine Tools					
Manufacturing Operations	Course 548	1 Elective Credit	Full Year Course	$10^{\text{th}} - 12^{\text{th}}$ Grades	
Advanced Metalworking is an upper-level course designed for the student with an interest in metalworking. In this class students will be refining there metalworking skills by building a required metal project. Students will also be allowed to plan, create drawings, and construct a metal project of his/her choice. All material cost will be the responsibility of the student for that project. Prerequisite: Welding Technology					
^		1/ Elections Constit	Comparison Comparison	11th 10th Crasher	
Consumer Maintenance	Course 549	¹ / ₂ Elective Credit	Semester Course	$11^{\text{th}} - 12^{\text{th}}$ Grades	
Consumer Maintenance is a course designed to teach students basic automotive and household maintenance, though the use of hands-on activities. Part 1: Students will fully understand the workings of the internal combustion engine and the systems that make up the modern automobile. Activities will include taking apart and putting back together a small engine. As well as changing oil, checking fluids, checking tire pressures, changing and repairing flat tires, checking batteries/ alternator, checking and replacing lights. Part 2: Students will be exploring the most common household items that require regular maintenance and repairing and painting walls, and refinishing woodwork.
